Yesterday morning, at 9 o'clock, the Commissioners for the District assembled promptly at the executive office, and proceeded with such routine business as was before them. There was an exceedingly large number of per sons present seeking interviews for various purposes; some wanted contracts, others employment, and others only asked to be reintated to the positions that they had the day be fore been required to vacate. All bore with them ample recommendations to secure any favor it the Board of Colored School Commissioners many of whom called for the purpose of ex-tending congratulations, and assuring the new forming the duties of the office with fidelity. The Dashaways now insist that ice-water is rulers of the confidence felt in their ability to

do what was right. At noon the Commission visited the Treasmry building, and had interviews with the two Comptrollers, and examined and talked over the forms necessary for the requisitions and other work of the departments. AT COLUMBIA BUILDING.

he never in all his life had such feelings of un-settledness as at the present time. In former days he had been accustomed to occasionally visit his fellow-employees in an adjoining room, but now he was alone, and no one near him. As a whole the Columbia building bears the appearance that would follow a sad cataspre in which many victims were made.

About moon the Commissioners, in company th Mr. E. L. Stanton, visited the Columbia uilding, where they, with Lieutenant Hoxie, the executive officer, repaired to the comp-troller's office and held a consultation. Comptroller Baker and Mr. Moses Kelly were present, and for several hours they discussed the various plans suggested, in which arguments were made for the transfer of all District moneys in the hands of the comptroller and de posited at the National Metropolitan Bank, to he United States Treasury-about \$105,000 They also discussed the form of warrant to be hereafter used by the compivoller in drawing money from the United States Treasury, but ofer with General Spinner before coming of final conclusion. Agreeably with previous arrangements, delegations from the Potomac Fruit Growers and the National Industrial Institute, on Wednesday last, took a trip to Wilson's Station, on the Baltimore and Potomac railroad, in Prince George's county, Maryland, to meet and confer with the officers of the Agricultural Society of that county—Johns T. Clarke, president, and Robert Bowle, secretary. They have two uployment in the General Land Office about

and D. S. Curtis, of the Fruit Growers. The members of the Prince George's county society took a favorable view of and seemed willing to encourage the Industrial Institute. Among those who most spoke in favor of it were Dr. Charles A. Wells, C. C. Magruder, esq., B. F. Guy, esq., Henry Scott, and others. Henry Scott has the most iurriant and heavily fruited vineyard—Delawares, Concords, and others—we ever saw in Maryland. He has other fine fruit trees in good bearing. Adjoining it is Dr. J. Brainerd's handsome farm, and pear by is the large farm of Reuben Middleton, eq. A trefteshing collation, moistened with native Catawba wine, was furnished by Lewis Magreder.

Altogether the trip and occasion were highly placing it in one pocket drew from the other an Altographer the trip and occasion were highly enjoyed by all who participated, and all heartily hold on to the pistol. SCHENCE'S SEA WEED TONIO,

Just the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bedily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system, we must resort to artificial means. For this purpose Schenck's Sea Weed Tobic is very effectual. A few doses will create an appetite and give tresh vigor to the enervated body. For dwspepsia it is invaluable. Hany eminent physicans have doubted whether dyspepsia one be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corresive minerals or acids; in fact, it assists the regular operations of nature and supplies her difficiencies. The tonic in its nature se much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested, and when this joice is not exercted in sufficient quantities indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deflicted. Schenck's Sea Weed Tonic performs the duty of the gastric juice when the latter is deflicted.
